### Revealed in a Vision.

Back from the road leading out of  
H—— stands an old, deserted house  
of the style built when honest work was  
to be had for; though a century and  
more of age, its frame is staunch, its  
roof sound, and its heavy doors fit their  
castings. It stands in a hollow place  
that has become marshy and that gives  
sustenance to a heavy growth of weeds.  
The trees that stand about it are thick  
and dark, and the countryman jogging  
home at night speeds his step when he  
passes this house, so still and lonely,  
staring at him through a dozen unglazed  
windows. An eccentric named Bar-  
clay lived there as late as 1867, but he  
disappeared suddenly, and the house re-  
mained unoccupied; for after his dis-  
appearance queer stories began to be told  
of the place, and people were  
found who declared that they had seen  
lights glinting about the premises at  
half past one in the morning and heard  
unseen sounds from the gravel path that  
it was Barclay's body that was dragged  
away. Then came a rattle and a plunge in  
the old well, and all was still.

I recovered my power of movement  
as if an electric shock had passed  
through me; and, though I do not  
know how I got out of the house, I  
found myself in the road, and ran to  
town as if for life. The clock struck  
two as I entered my door.  
  
(CONTINUED.)

I was amazed to discover him there,  
for I had supposed him to have been  
absent for years. He must have been  
living in seclusion, I fancied, and had  
perhaps been ill, for he was as pale as  
any corpse, and his form was gaunt  
and shrunken. He held a candle, and  
lifting it high peered at the fireplace;  
then, with a cry, he rushed forward,  
but one of the two men sprang at his  
feet; I saw the gleam of a knife; there  
was a horrible shriek, and Barclay fell.  
The candle was put out in his fall, and  
all was darkness again. There was a  
moment of absolute silence, in which I  
had nearly fainted from a sick horror  
that oppressed me. I tried to rise, to  
call out to escape, but my body was  
powerless to obey my will. A whisper-  
ed consultation followed; there was a  
hurried digging at the bricks again; I  
heard the chink of money; then the  
door was opened and something was  
dragged down the stairs. I heard the  
front door jar on its hinges, and knew  
from sounds on the gravel path that it  
was Barclay's body that was dragged  
away. Then came a rattle and a plunge in  
the old well, and all was still.

I recovered my power of movement  
as if an electric shock had passed  
through me; and, though I do not  
know how I got out of the house, I  
found myself in the road, and ran to  
town as if for life. The clock struck  
two as I entered my door.  
  
(CONTINUED.)

and they all live in hopes of soon "striking  
it rich," and thus realizing a con-  
siderable pecuniary reward for all their  
hardships and exertions cheerfully and  
patiently endured. — Western World.

### BINDER TWINE OUTLOOK.

The local situation in Binder twine  
is somewhat interesting at present, and  
it seems to be the impression that there  
will be a lively scramble for twine before  
the season is over, with prospects  
of a sharp advance in prices. It is a  
well known fact that last year's trade  
in twine was very unsatisfactory for  
dealers. The large implement firms,  
who are the principal handlers of twine,  
secured their orders in advance from the  
farmers and brought in a supply of  
the article in accordance with their  
estimates of the demand. When the  
harvest came on, however, it was found  
that the quantity of twine was greatly  
in excess of requirements; crops turned  
out much lighter than expected, and  
many farmers throughout the country  
only took a small portion of what they  
had previously ordered from dealers.  
The dealers did not care to force the  
twine upon farmers, and by general  
consent decided to carry it over.

Notwithstanding the fact that twine  
was sold on rather a close margin last  
year, the local dealers decided to reduce  
prices about three cents per pound this  
year. The standard price last year to  
farmers was 20 cents per pound, though  
there was some cutting in prices toward  
the close of the season. This year the  
price was fixed at 17 cents per pound.

The most interesting feature of the  
local situation at present is the pros-  
pects of a shortage in the supply.  
Crops promise to be heavy this year,  
and a large quantity of twine will be  
required. In view of the present con-  
ditions it would be advisable for farm-  
ers to place their orders at once, as it  
is quite possible that those who delay  
will be obliged to pay higher prices,  
while those who neglect ordering until  
the harvest is in may be unable to obtain  
supplies except at high prices, if at all.

At any rate twine will certainly  
not be any cheaper, while an advance  
very shortly is within the probabilities.

### COMMERCIAL.

MONTRÉAL, July 12.—LaPatrie says  
in the near future there will be a break-  
ing up of the present political parties  
in Canada, and in their stead two par-  
ties will rise—the Roman Catholics and  
the Protestants. It says further: "Af-  
ter Sir John leaves active politics the  
Conservative party will go to pieces.  
Sir Charles Tupper is too old, and  
would not inspire the French Canadi-  
ans with confidence. Sir Leonard Tilley  
is also too old, and Langevin is too  
much under the influence of Rome to  
command the Orangemen. Sir John  
Thompson, though a Catholic, has  
more liberal tendencies, but he is too  
difficult to approach. There is Mr.  
Meredith, but Quebec Catholics would  
not want him after his escape of election.  
Not much can be said of McCarthy.  
The article concludes: A great part  
of the Conservative party will go to pieces.  
Sir Charles Tupper is too old, and  
would not inspire the French Canadi-  
ans with confidence. Sir Leonard Tilley  
is also too old, and Langevin is too

**DISINFECT !**

Now is the time to disinfect.

*Chloride of Lime,**Copperas,**—and—***CRUDE CARBOLIC ACID***—at—***BOLE'S.**

A large consignment of Toilet Soaps just arrived.

**BOLE'S.****The Moose Jaw Times.**

FRIDAY, JULY 18, 1890.

**SCHOOL GRANTS.**

In the *Times* of June 27th, an article appeared on School Grants, in which we referred to the circular sent out by the Secretary of the Board of Education, regarding the reduction in the amount of the Government grants to schools. We showed that no person was to blame in the matter, as the Dominion Government had appropriated less than was asked for that purpose, and that the Lieut. Gov. could not pay out money he did not receive. We pointed out the bad effect it would have on the school system of the North West, and the country at large. The *Times* was the first paper in the Territories to call the attention of the Dominion Government to this matter, and this week we are pleased to be able to inform our readers that an Order in Council has been passed, granting an additional \$30,000 to pay the grants in full according to the School Ordinance. So that this year, at least, there will be no reduction in the amounts promised to schools. The Dominion Government have always acted in a liberal spirit towards the schools in the Territories and when it was brought to their notice that a mistake that would be of material injury to the country, had been made, they at once applied the remedy.

**CROP REPORTS.**

A representative of the *Times* who visited the Buffalo Lake picnic, and interviewed all the leading farmers of that locality reports that in every case where the grain was sown on old land, the prospects for an abundant harvest this season are very bright. Where the grain was sown on new land, the crops although a little backward on account of lack of rain, are, since the late rain, improving very fast. He verified the reports by a personal inspection of the crops of Messrs. Webb, Welch and McCartney, and found the reports of the farmers to be correct. The crops of the farmers above named look magnificent, being all headed out, and promise a very large average yield. We do not doubt but that if he had time to inspect the crops of other farmers, he would have found them equally good. Mr. McCartney's third crop of the same land without being plowed is truly remarkable, and is well worth a visit to see. Mr. J. G. Beesley, of Marlborough, Capt. Smith and Mr. H. C. Gilmore have fine fields of volunteer crop, from grained out last harvest. The crop is reported by these gentlemen to be very even and more luxuriant than that sown last spring. Mr. Joel Late near Boham, has wheat commencing to ripen for harvest. The Getty Bros. have a magnificent crop of 300 acres. A section of country south along the creek, suffered somewhat from drought, but the late rain, has had a good effect on the crop. We are quite safe in saying that the average yield of grain will be fully equal to that of 1888.

*Turning the First sod.*

Calgary, July 15.—Major Lafferty received a despatch yesterday stating that the official turning of the first sod on the Calgary and Edmonton railroad will be performed by Minister of the Interior Dowdney on Monday, July 21st. A half holiday will be proclaimed, which will be followed in the evening by a grand dinner to Hon. Mr. Dowdney and prominent railway men now here.

**Buffalo Lake (East) Pic-Nic.**

The picnic, last Wednesday, under the auspices of the Buffalo Lake Base Ball Club, in Mr. McCartney's grove, was a very successful and enjoyable affair. The place selected for holding the picnic was in a beautiful grove of poplars on the bank, overlooking the beautiful Buffalo Lake, and is well adapted for such entertainments. The ground has been put in first-class order by the young men of the district and everything provided for the accommodation of a large number of guests. A very large crowd of people not only from the Buffalo Lake district, but from nearly every part of the Moose Jaw district and from the town, spent a very pleasant day at the picnic. The ladies of the district arrived on the scene about ten o'clock with well filled baskets, of rich dainties, which only farmers wives and daughters know how to prepare, and at once proceeded to spread the tables which, when the good things were spread upon, fairly groaned beneath their load. Before lunch a base ball match was played between the Buffalo Lake club and a visiting team from Marlborough, which resulted in a victory for the Lake club by a majority of eight runs. After dinner another match was played between a team from town and the Lake team, and was won by the same club by a score of 20 to 17 and an innings. The Buffalo Lake club have improved wonderfully during the past month, and with a little more practice would compare favorably with any club in the North West. A dancing pavilion had been erected and was well patronized during the afternoon: the music was furnished by a string band under the leadership of Mr. Getty, and was very inspiring to those who enjoyed the "light fantastic." The Moose Jaw Brass Band of 12 pieces played excellent selections at intervals during the day. The visitors from the town are fond in their praises of the hospitality of their friends in Buffalo Lake district. About seven o'clock the crowd dispersed well pleased with their day's sport.

To the Editor of the *Times*:

GREETING.—The bond of affection which was created between the people of Moose Jaw and vicinity and us, during our three years of labor there would have been to us very pleasurable succor by close and intimate correspondence with many of our old friends, but the excessive labor belonging to a Circuit of eight appointments has, on our part, rendered such a course impossible. But with your permission I will now, through the *Times*, convey to one and all our greeting. It is with a great deal of interest that we have learned of the constant and uniform prosperity which you have had on every hand. While living amongst you my impressions were, that for a general purpose district, yours would be difficult to surpass in the world—not excessive for anything, but a good fair average for everything. My gleanings from all sources during the past year have confirmed those impressions. Agriculture, business, society, education and religion have all made very marked advances amongst you. You may not possess many of the boom elements, but you certainly possess what is far better—those of constant, gradual development. With your ambition active and your better judgment and faith in God fully abreast with it, there is in my judgment a very promising future in store for the Moose Jaw district. The *Times* has supplied its quota to this general improvement, and the improvement in turn has reacted on the *Times* and made improvement in it possible. I greet the *Times* in its new form; it will now compare very favorably with the best of eastern local papers in towns of similar size. I greet my old friends of the Episcopalian and Presbyterian churches with whom we occasionally met in religious and social intercourse. I rejoice in your prosperity and bid you "God speed." But like the old prophet, while among you, I principally "dwelt among my own people." My labors lie amongst them, hence my warmest friendships grew up there. It is with peculiar interest I have watched your career, and it is with feelings of gratitude for past acts of kindness and forbearance that I greet you on your way to increasing success. I scarcely ever think of our associations with you in the past, but what that delightful selection, so excellently rendered by the choir, on the eve of our

departure recurs to my mind—"God be with you till we meet again." I have taken those words as embodying the sincere wish, not only of the choir, but of the entire church and of every congregation on the Circuit. That prayer has followed me as an inspiration during the year. My constant desire is that you all may still heed to the word of His grace which is able to build you up and give you an inheritance with all them who are sanctified.

W. C. BUNT.

Souris City, July 12th, 1890.

**Killed by Lightning.**

**A Highly Respected Farmer, His Daughter, and a Clergyman's Son**

STRUCK BY LIGHTNING AND INSTANTLY KILLED

It is our painful duty this week to record the saddest occurrence that has ever taken place in the Moose Jaw district. During the thunderstorm on Tuesday evening last Mr. H. C. Battell, his little daughter Bertha and Herbert, eldest son of Rev. Dr. McLean, were struck by lightning and instantly killed. The sad event has cast a gloom over the entire town and district, and not only the friends of the deceased but the whole community received a shock when the terrible news was brought to town. Mr. Battell was in town on Tuesday afternoon in his usual health and spirits, but hastened home in the evening as he saw the storm gathering. Herbert McLean requested and was granted permission to accompany him for a few days in the country, and started out in high spirits. The storm of wind and rain accompanied by thunder and lightning was one of the worst that has ever visited this locality. Mr. Battell and his family were sitting around the table in their own home when the fatal bolt came. It appears that the lightning came down the chimney, shattering it to pieces, and entered the room where the family were sitting. Mr. Battell was sitting at the table reading with little Bertha on his knee, and Herbert McLean beside him. Mrs. Battell and Ida on the opposite side of the table. Mr. Battell and Bertha were struck on the head, and Herbert on the side, and all three must have been instantly killed. Mrs. Battell and Ida were stunned, but recovered in a few minutes. When Ida recovered she noticed that her father's clothes were burning, and in spite of her severe burns managed to crawl over and extinguish the fire and thus saved an additional horror. Had she not done so the probabilities are that the house and inmates would all have been consumed. Mrs. Battell recovered consciousness a few minutes later, and the dreadful sight of her dead husband, child, and young friend met her eyes. Leaving the place in charge of Ida, she started out in the storm for the house of Mr. J. E. Battell about a mile distant, and reached there completely exhausted. A messenger was at once despatched to town with the sad news, and a large party accompanied by Dr. Turnbull started out to the scene of the calamity. On arrival the Dr. at once pronounced the three dead. Dr. McLean was in Regina attending a meeting of the Board of Education and was at once telegraphed for, and arrived home about three o'clock, to learn the sad news, and to comfort the broken hearted mother. On Thursday at ten o'clock the last sad rites were performed and the three bodies interred in the new cemetery. The funeral procession was the largest ever seen in the Moose Jaw district, the whole town and district turning out en masse to pay their last respects to the remains of the man who was universally respected and liked in the district, and the two children who were cut down in the springtime of life. The funeral of Mr. Battell was conducted by the members of Moose Jaw Lodge, No. 26, A. F. & A. M., of which he was an honored member. The funeral cortège from the house of the deceased to the church was fully one-half mile long, about sixty rigs being in the procession. At the church the services were conducted by Rev. J. M. Harrison of Regina, President of the Manitoba and North West Conference, and Rev. S. J. Taylor, pastor of the Presbyterian Church. The altar, pulpit, and windows of the church were draped in black, and the cofins covered with beautiful floral wreaths, given by the friends of the deceased. A wreath of flowers in the shape of a harp with three broken strings, which was placed on the pulpit was very suggestive of

the sad event, which had brought sorrow into a number of homes. The scholars of the Methodist Sunday school of which the three were members, marched in procession behind the hearses containing the caskets. Four boys of the Sunday school acted as pall bearers for Herbert McLean, and four little girls, dressed in white, for little Bertha. Mr. Battell was a prominent member of the Moose Jaw Methodist Church, a member of the Official Quarterly Board of the church. He was for the past three years teacher of the Bible Class in the Sunday School, a position which he was eminently qualified to fill. "A good man has fallen" was the exclamation of our citizens when they heard of the sad affair. The bereaved relatives of the departed ones have the sincerest sympathy of the entire community, and many were the tears of sympathy that mingled with theirs as the bodies were consigned to their last resting place.

**The Moose Jaw Times.**

FRIDAY, JULY 18, 1890.

**TOWN and COUNTRY.**

Mrs. A. E. Wilcox, returned from Grenfell, on Tuesday morning.

Mr. Bowerman B. A., late Classical Master in the Winnipeg Collegiate Institute is in town today.

Miss Maud Ostrander returned home from Tilsonburg, Ont., on Saturday morning last, accompanied by Miss Bearpark.

**SKRIVAN WANTED.** Immediately a Girl to do light house work. Apply to Mrs. Jas. Main, Manitoba St.

Mr. James Harvey of the Ottawa Hotel, was married on Wednesday last, in St. John the Baptist Church, to Miss Fanny Harmer of Campbellville, Ont. Rev. W. E. Brown performed the marriage ceremony.

Miss Agnes Knox is billed to give one of her splendid recitals in Campbell's Hall, Moose Jaw, on Tuesday evening, July 29th. Her tour of Manitoba and the Territories has so far been very successful.

The Canadian Pacific railway employees on the Moose Jaw division have decided to hold their annual picnic, in aid of the library fund, in Qu'Appelle on August 13th. A good programme of sports etc. is being arranged.

Horse To REST - Cheap. Possession given immediately. Apply to J. G. Gorham

A magnificent rain fell in this district on Tuesday evening. It did an immense amount of good to the crops. In some parts the late grain was suffering considerably for want of rain, but the storm on Tuesday night will have the effect of freshening them up.

A flower service was held in St. John the Baptist Church last Sunday. The floral offerings by the children, consisted of beautiful bouquets of wild flowers, which were placed on the altar. An appropriate sermon was preached by the pastor, Rev. W. E. Brown.

Mr. W. Rothwell, B. A., Principal of the Moose Jaw Union School has been appointed Inspector of schools in Western Assiniboina, to succeed the late Mr. Grover. Mr. Rothwell is now at his home in Dutton, Ont. spending his vacation.

Go to Bellamy's for the Celebrated Doherty Organ, Evans Piano and White's Sewing Machine.

Conductor H. G. Hubbard, of the Moose Jaw division of the C. P. R., returned this morning from Winnipeg where he has been for the past week attending a convention of the Railway Trainmen. The business transacted was private, but we understand the tariff of wages paid on the western divisions was fully discussed.

We are pleased to learn that the news telegraphed from Calgary concerning Mr. Duncan Cameron, a Mail Clerk running between Calgary and Moose Jaw, is not so bad as reported. Mr. Cameron was bitten on the hand by a dog, but the wound will not necessitate the amputation of his hand as reported. Latest reports are that he is getting along nicely, and will soon be able to attend to his duties again.

Rooms to Let—Furnished or Unfurnished. Apply to G. M. Annable.

Mr. J. L. Ross, advanced agent for Miss Knox, was in town on Wednesday last, making arrangements for her recital here on July 29th. The entertainment will be held in Campbell's Hall, and will be a rich treat. The prices have been fixed at 35 and 50cts. Plan of hall may be seen and tickets procured at Bole's Drug Store in a few days. No person should miss the opportunity of hearing this beautiful and accomplished young lady.

Mr. James Thompson, of Wood Mountain Post, is in town this week on business. He reports everything flourishing in the southern part of the district. There is very little grain grown around the Post and Willow Bunch, but what there is looks well. The grass is very abundant this year, and the cattle and horses are in first class condition. He says that the people at Willow Bunch are very much in favor of the Moose Jaw mail route, and will not be satisfied if it is changed. Messrs. Glass and McLean will cross the line shortly with 300 head of Montana horses to feed on the luxuriant grass on the Canadian side of the line.

The officials of the C. P. R. certainly deserve great credit for the fine appearance of the flower and vegetable gardens at this place. Through the kindness of Mr. T. Birbeck we were shown through the gardens and had the pleasure of noting the fine growth that is being made by the trees and vegetables. The garden contains about two acres in the C. P. R. reserve along the track, east of the grain warehouses, and was plowed from the unbroken prairie this spring. In a former number we described the general lay out of the garden, and hoped that the experiments in trees would be successful. The results of this experiment has been highly satisfactory, and will be of great service to farmers and others in deciding what class of trees are most suitable for the district. Out of 300 trees planted, not more than half a dozen have failed to grow. The principal varieties are White Ash, Black Birch, Linden Mountain Ash, Black Cherry, Russian Mulberry, Hard Maple, Box Elder, White Spruce, Butternut, Red Cedar, Plum and Apple trees. The growth in some of these trees is remarkable. Some of the Maples showed a growth of 18 inches, Mountain Ash 15 inches, Box Elder 15 inches, Mulberry 11 inches, Butternut 6 inches. The fruit trees are also doing well, and if afforded some protection next winter, there is no doubt of their successful growth. These trees have all taken firm root in the soil as the wood in the new growth is quite hard and firm. The vegetables in the garden include all the varieties, such as carrots, beets, mangolds, onions, beans etc., and are doing well. Potatoes are in bloom, peas and beans ready for table use, beets, carrots and mangolds rapidly forming roots. In the centre of the garden is a beautiful fountain surrounded by plots of the loveliest flowers in bloom. Two men are engaged the whole time in looking after the garden, and it is needless to say that everything is well looked after. Travellers along the line say that the Moose Jaw garden is the best west of Winnipeg. The C. P. R. officials here have good reason to be proud of their garden here, and deserve great credit for their efforts to add to the beauty of our town.

A meeting of the Board of Education was held at Regina on Tuesday morning. Present, Bishop Pinkham, Chairman, Justices, Whitmore and Roche, Revs. Father Leduc, Dr. McLean, S. J. Taylor, M. A., Messrs. Forget and John Second, M. L. A. The principal business before the Board was the granting of certificates, the appointment of a committee consisting of Bishop Pinkham, Father Leduc and Dr. McLean to revise the "Regulations" for the next meeting of the Board, having special reference to the granting of certificates, none to be given to holders of non professional certificates outside the Territories, except on examination at teacher's annual examinations. Professional certificates will be dealt with by the Board at their regular meetings. A deputation from Regina School Board waited upon the Board of Education, to call the attention of the members to the advisability of establishing a kindergarten system as a part of the training necessary in connection with the Normal Department of Union Schools. The deputation also urged upon the members the duty of, at the

earliest moment, establishing Normal Departments in connection with Union Schools, and if possible the establishing of a Normal School at one or two places in the North West Territories, namely Regina and Calgary. The Board took the matter into consideration and arranged to bring the whole question in proper form before the Legislative Assembly at its next meeting in order that the necessary funds may be secured. There were seven applicants for the position of Inspector of Schools in Western Assiniboina. The members of the Protestant Section at a special session appointed Mr. W. Rothwell, B. A., Principal of the Moose Jaw Union School, to the vacant position. The appointment to the vacancy on the Board of Examiners was left over until the next meeting of the Board. Some new text books were examined and placed on the list of authorized books for use in the schools of the Territories. Rev. S. J. Taylor, M. A., of Moose Jaw, resigned his position on the Board, owing to his removal from the Territories. A resolution of Condolence was passed to Dr. McLean in the sad occurrence which happened to one of the members of his family, while he was attending to his duties at the meeting of the Board. The next meeting of the Board will be held in September to declare the result of the Teachers' examinations and other matters.

The farewell social given to Rev. Mr. Taylor by the members of the Presbyterian Congregation on Thursday evening, was well attended and was a very pleasant affair. A good programme of music and speeches was rendered. Miss McRae of Winnipeg who is visiting in town this week, sang the beautiful Scotch song "My Ain Country" with her usual expression and sweetness. Rev. Dr. McLean gave a short address expressing the esteem in which Mr. Taylor was held by the Methodist congregation, and their regret at his departure from the town. An address in which allusion was made to Mr. Taylor's long residence and earnest work in the town, and expressing the good wishes of the Presbyterian congregation for his and his family's future welfare and success, was presented, with a purse of money, on behalf of the church and Ladies' Aid Society, by Mrs. Chalmers. Mr. Taylor feelingly replied, reviewing what had been accomplished by the congregation during the past seven years and thanking not only his own congregation but numbers of other congregations in town for the many kindnesses he had received during his residence in Moose Jaw. The choir of the church, at intervals during the evening sang appropriate selections closing with "God be with you till we meet again". The following is a copy of the address presented to Mr. Taylor:

**DEAR PASTOR.** —It is with feelings of sincere regret that we are assembled on the present occasion. Seven years ago you came among us, when our town was in its infancy, and when the advantages and luxuries which we could offer to a man of culture and sterling worth were very few indeed, yet you saw fit to enter in your lot with us as a citizen and Missionary. In the early days you entered heartily into every scheme, and never have you withheld your support from any movement having for their objects the development of the town and the welfare of the community. You adapted yourself to the social wants of the people, and have even taken a deep interest in our Educational Institutions. The growth of our town has been to a considerable extent due to your broad grasp of the public questions affecting our interests, and the high moral tone of the people, induced to a great degree by your public life and example. As a pastor you have always labored in union with the other denominations in the town. You have toiled nobly with the pastors of other congregations, and the development of a strong religious sentiment in the town has been the result. As a congregation we are plunged in deep sorrow. It has been our privilege to enjoy, during the past seven years, the services and associations of a man of sound learning, quiet and unassuming in manner, pious in life and liberal in spirit. That the Presbyterian Church has prospered under your pastoral care is evident to all. Under your pastoral care this church was built; a Congregation, Sunday School, Ladies' Aid Society, and other kindred institutions organized. You have been a sharer in our joys and sorrows. Your life has been knit with ours. The Assembly has deemed it wise to agree to your removal to a wider sphere of labor where you may be in a position to perform more extensive work for God. We bow in submission and pray that the blessing of our Great Father may rest upon you and your dear partner

and family in your new field of labor. May an abundant harvest of precious souls be the result of your consecration and zeal. In token of our esteem and in remembrance of the days gone by, kindly allow us to present to you this address and purse of money.

Signed on behalf of the Congregation of the Presbyterian Church, and for the Ladies' Aid Society.

MRS. CHALMERS.

At the regular Semi-Annual meeting of I. O. F. Court Moose Jaw, No. 509, on Monday evening last, the following officers were duly elected for the ensuing half year: Hugh Ferguson, C. D. H. C. R.; R. Hockley, C. R.; John E. Kerr, Rec. Secy.; J. E. Annable, Financial Secy.; R. Bogie, Treas.; W. Timmons, Chaplain; T. L. Withrow, S. W.; F. Herrler, J. W.; J. McCauley, S. B.; A. Wright, J. B. The installation of the above officers will take place next Monday evening.

Col. Robinson the Probable Successor of Middleton.

Ottawa, July 15.—It is intimated that the Canadian Government will make an effort to satisfy the demand for the appointment of a Canadian as Commandant of Militia by selecting Col. Chas. Robinson, a Canadian, now assistant military secretary to the Horse Guards in London to the position.

General Middleton has resigned. If every one who appropriated goods belonging to half-breeds would do likewise, nearly all of those engaged in suppressing the rebellion in the North West would resign also.—Pilot Mount Sentinel.

**Growth of England's Population.**

The increase of the population in England and Wales is still very rapid. According to the statistics for 1889, just published by the Registrar General, the births in that year were 885,179 and the deaths 517,968, an increase of 367,211 within the 12 months without allowing for immigration. That is a good solid colony added to the population every year. The total number now exceeds 29,000,000, or six times the population of Ireland, which was once more than half our own. The births of men exceed those of women by 16,411, so that the disproportion between the sexes in favor of women is due entirely to immigration and occupations abroad. But for these intervening causes the number of the sexes would be nearly equal, the excess of male deaths being more than fourteen thousand. At the present rate of increase the population of England and Wales will in 1970 be at least sixty millions—rather a formidable prospect if it were certain that the rates would keep steady. There is, however, no certainty of the kind.

Everyone knows what a picnic is, but most folks would find it hard to say how it got that name, and yet it is simple enough when you come to learn it. When a picnic was being arranged for, the custom originally was that those who intended to be present should supply the edibles and drinkables. A list of these necessities having been drawn up it was passed around and each person picked out the article of food that he or she was willing to furnish, and the name of the article was nicked or ticked off the list. The open air entertainment thus became known as pick and mix. The custom is said to date from 1802, so that the picnic is wholly an institution of the nineteenth century.

**VIGILANT CARE.** Vigilance is necessary against unexpected attacks of summer complaints. No remedy is so well known or so successful in this class of diseases as Dr. Fowler's Extract of Wild Strawberry. Keep it in the house as a safe guard.

The Canadian Pacific Railway decided upon the names of the steamers now being built for their Pacific service. They are "Empress of India," "Empress of China," "Empress of Japan." The Empress of India, which will be the first completed, is expected to be launched at Barrow-on-Furness about the end of November, and will probably reach the Pacific coast and begin service in February or March.

Never before in the history of the coast has the lumbering industry taken such strides as it has during the past year, and it is not to be wondered at when the fact is considered that timber is getting so scarce in the east that mills are cutting logs as small as nine inches in diameter, thousands of such having been cut last year by some of the mills in the vicinity of Ottawa, Ontario.

Mr. Fred. White, controller of the Mounted Police, goes very shortly on his annual tour of inspection, and when in Regina he will make an enquiry into the charges preferred against Commissioner Herchenow by N. F. Davin, M. P.

**Good News!**

No one, who is willing to adopt the right course, need long be afflicted with boils, carbuncles, pimples, or other cutaneous complaints. Ayer's Sarsaparilla makes efforts to expel impurities and stale matter from the blood, and show plainly that the system is riding itself through the sale of tonics which are the medium of the medical art. To those who have suffered from Torectosis the organ to their proper function, Ayer's Sarsaparilla is the medicine required. That no other blood-purifier can compare with it, thousands testify who have gained

**Freedom**

from the tyranny of depraved blood by the use of this medicine.

"For nine years I was afflicted with a skin disease that did not yield to any remedy until a friend advised me to try Ayer's Sarsaparilla. It is the best, and no other blood medicine could have effected so rapid and complete a cure."—Andres D. Garcia, C. Victoria, Tamaulipas, Mexico. "My face, for years, was covered with pimples and blisters, for which I had no remedy till I began to take Ayer's Sarsaparilla. Three bottles of this great blood medicine effected a thorough cure. I confidently recommend it to all suffering from similar troubles."—M. Parker, Concord, Vt.

**Ayer's Sarsaparilla,**

PREPARED BY

**FACTS OF GREAT IMPORTANCE !****TO FARMERS OF CANADA AND THE WORLD.****THE BRANTFORD LIGHT STEEL BINDER.**

WE do not claim to have received a Gold Medal at Paris, although we received two Silver Medals, but we **DO CLAIM :**

**FIRST**—To have defeated the Massey (Toronto) Binder in every competition in the world, where we have met it on an equal footing.

**SECOND**—During the season of 1889-90, in Australasia, the "Brantford" defeated all the leading binders of the World. See list of victories.

**THIRD**—In the Australasian competitions the "Brantford" Binder defeated the Massey (Toronto) SIX TIMES; or EVERY TIME the two Binders came into competition the "Brantford" was victorious. See list of Victories.

**FOURTH**—The "Brantford" binder replaced every other binder of any consequence made in Canada in 1889. That is, where other makers of New binders failed and were returned, the "Brantford" was purchased and successfully finished the work.

**FIFTH**—We challenge any one to point to a single instance where a new "Brantford" has been returned through failure to do its work.

**SIXTH**—A great many more "Brantford" binders were sold in Canada in 1889 than of any OTHER MAKE, and as many as were sold by Fourteen other Canadian makers put together.

**SEVENTH**—The "Brantford" binder is a "Home" machine and has a "Home" record without a single defeat in any kind of crop, used by hundreds of satisfied farmers in all the provinces of the Dominion.

**EIGHTH**—The "Brantford" Binder, as sold "at home," is specially designed and built for home trade, and is particularly adapted to the needs of Canadian farms and farmers. For foreign countries it is built to suit the peculiarities of the land and crop prevailing where it is sold.

**Do Not Be Deceived.----Buy The Binder that Has Never Failed in the Harvest Field.**

**The Only Binder that can Handle Short Grain and Long Grain With Equal Success.**
